The Two Campaign.

France is at this moment the scene of one of the most remarkable campaigns of modern times,—remarkable alike on account of the circumstances to which it may be said ostensibly to owe its immediate origin, the gigantic scale upon which its operations are conducted, the tremendous results of these operations, and the profoundly important events of which it must be regarded as the proximate cause. Tracing the present war to the candidature of Prince Leopold for the throne of Spain, one cannot but be impressed with the singular disproportion which sometimes exists between cause and effect, and is led involuntarily to exclaim, 'Behold how great a matter a little fire kindleth.' Scarcely fewer than two millions of the picked men of Europe, well disciplined and armed to the teeth with the most deadly weapons which human ingenuity and modern science can invent, have been brought into the field ; the earth reels and trembles under the tramp of those martial hosts and drinks in the blood of myriads slain ; and while all this is going on the obscure Captain of Cavalry, the mention of whose name kindled all this terrific flame, has been almost forgotten. Napoleon, who a few months ago claimed, and not without some show of reason, to be the arbiter of peace or war in Europe, is now a prisoner in a German castle. Napoleon, to whose every utterance the civilized world listened with attention almost amounting to awe, at whose nod the *rentes* rose or fell, has laid his unused sword at the feet of the King of Prussia. The grand army which was to have marched through Germany to Berlin in six weeks has been cut in pieces, and the half of France is in the hands of the invading army, while Paris, the heart of France, in surrounded by a forest of Prussian steel. But the results of this wonderful struggle have by no means been confined to the immediate parties thereto. The oldest and most remarkable dynasty in the world has been brought to a sudden termination. Pio Nono, as well as Napoleon, has been dethroned. A united Italy, a united Germany, shall we say, a dismembered France? But the end may not be yet. There is a proverb that 'A bad beginning makes a good ending.' A bad beginning France assuredly made It remains to be seen whether she will make a good ending. Turning away for a moment from the bloody military campaign in France to the bloodless political campaign of British Columbia, or, as some might possibly prefer to think, from the sublime to the ridiculous, let us glance for a little at what more nearly concerns ourselves. And it is, indeed, a striking feature of the universal fitness of things that to the people of British Columbia the result of the impending election is really of greater importance than the issue of the Franco-Prussian war. It is doubtless of no little importance to Europe to decide whether France shall be permitted to maintain her territory intact, whether she shall be compelled to surrender a part of it to the Prussians, or whether—as was suggested in these columns shortly after the war began, and referred to by the Great Powers as a not undesirable compromise—Alsace and Lorraine, together with the Duchy of Luxembourg, shall be added to Belgium, and the whole guaranteed by all the Great Powers as a neutral and independent Kingdom to separate two ancient enemies and ensure the peace of Europe. But whatever may be the share of interest which British Columbia, in common with every other civilized community, has in the reestablishment and maintenance of peace in Europe, it greatly more concerns her people that she shall as speedily as possible become a part of the great British Empire now being consolidated in North America, and that she shall become the immediate recipient of those substantial benefits certain to flow from the new relationship. Such being the case, it becomes the people to be watchful in order that they may not be led away by cunningly devised fables. The issue at the Polls is a simple one. It is, Confederation or no Confederation upon the Terms negotiated at Ottawa and now before the country. It is asserted in a certain quarter that the Terms are still open to amendment, and the people are urged to introduce new conditions. Such, however, is not the case. The Terms have already been negotiated between the two Governments, and any change would necessitate fresh negotiations which would doubtless involve a year's delay. The Terms are not open. There are two open questions to be submitted to the country along with the Terms, viz: a choice of Customs Tariffs and a choice of Constitutions; but it will have been observed that both of these questions have been judiciously and artfully arranged in such a way as not to make the main question of Confederation hinge upon them. The aye or no upon the main question will in no way or degree interfere with the aye or no upon the two ancillary questions. If, therefore, the people really desire union upon the Terms now before them, they must be prepared to accept these Terms *as they are*. It will readily be admitted that the new issue proposed to be thrust upon the Canadian Government is one of no little importance. It is of great moment to the people of the Colony that the Canadian Pacific Railway shall terminate here. It is of equal importance to the people on the Mainland, from the mouth of the Fraser to, we may say, Soda Creek, that the railway shall pass down the valley of the Fraser; and it must be tolerably clear that if the railway passes down the valley of the Fraser it is not likely to come here. To raise that point now, and to thrust it forward as a condition of Confederation would be to inaugurate a war of localities scarcely less bitter, perhaps not much less disastrous, than the war of races now being waged in Europe. But it must occur to the reader's reflection that in our case the biggest battalions would not necessarily win. Neither could win. If to raise the issue now would be to settle the dispute we confess that we might be induced to think that one year's delay of Confederation might possibly not be too great a price to pay for such a settlement, great as undoubtedly would be the sacrifice to the country. But surely no words are needed to show that such a result could not be hoped for. The question of route and terminus can alone be definitely set at rest by a thorough survey by the most efficient engineers. That survey the Canadian Goverement cannot and will not undertake *before* this colony becomes a part of the Dominion. In the Terms sent to Ottawa we gave Canada three years in which to make the necessary surveys and commence the work of actual construction. In the Terms brought back from Ottawa the Canadian Government agrees that the surveys shall be completed and the work of constructing the railway commenced within two years after union Shall we now ask the Canadian Government to decide both route and terminus *before* union, and, consequently, before a survey has been made?

Stirring News from Omineca!

A reliable gentleman has just arrived from Germansen Creek at Quesellemouth and reports that the day before he left the creek the Discovery Company took out a years' powder box full and one and a-half ounces over of gold for one day's work. The company comprise three men. All the other claims on the creek were paying well Mr Elmore, trader, had returned to Ogden Landing with forty pounds of gold dust. People in the upper country are much excited over this intelligence, and Dunlevy, Colbraith and many others were preparing to leave immediately for the spot.

THE NEGLECTED TOWN.—There are, indeed, few communities in the United Colony so largely productive as that of Nanaimo. There are none, we venture to assert, that have been made the subjects of such palpable and persistent neglect on the part of the Government. Nanaimo has an ample and truly magnificent harbor, in which the British fleet might with ease and safety ride at anchor; but it remains almost if not altogether unbuoyed, while thousands have (not improperly) been expended in marking the entrance to the Fraser. Nanaimo has been left without streets and for the most part without bridges, while New Westminster has had many thousands of the public revenue (not improperly) expended upon streets and bridges. Nanaimo has had all her convict labor taken away to Victoria, while New Westminster has (very properly) had its convict labor to a great extent applied to local improvements. New Westminster has a number of public buildings, erected at the public expense, amongst which may be mentioned a spacious and highly creditable public schoolhouse, a large and well-endowed public library and a splendid hall for the Fire Department. Nanaimo is left without any! We have drawn a comparison between these two communities because they are not very dissimilar in point of size; and we ask, Why has there been such a marked distinction in the treatment meted out to them by the Government? Truly it may be said of Nanaimo that Nature has done everything for it—the Government nothing. It will be well for the people of Nanaimo to see that they entrust the interests of the place to some one both *able* and willing to advocate these interests effectively in the Legislative Council. They have surely long enough been the victims of incapables, and it is high time for them to entrust their affairs to some one of *ascertained* ability and approved veracity.

RECKLESS JOURNALISM.—The readers of a certain local print are invited to believe that 'Bunster will get forty of a majority in Comox precinct, and the utmost that was expected to vote for Robson is five to ten' The public will readily comprehend the recklessness of the above assertion when it is stated upon the most undoubted authority that the entire white population of Comox is only seventy. Of these there are but thirty-three qualified to vote, twenty-two of whom are already pledged to Mr Robson, and of the remaining eleven it is expected that more than one half will be secured to him as the result of his canvass and the enunciation of his political views last week. So much for the facts and figures of of our contemporary. And this case is just a fair specimen of the recklessness constantly being exhibited in the same quarter.

PUGET SOUND ITEMS condensed from the Seattle *Intelligencer* of yesterday:—Edward Jones, charged with the murder of George Boyce, has been discharged.....Thirty of the German emigrants recently arrived from Chicago under the auspices of Governor Salomon, have settled on the Muckleshute, in Pierce county, where they propose building up a small town.....There is now little doubt that the terminus of the North Pacific railway will be at Seattle, certain instructions having been received from the Land Office looking unmistakably in that direction. .....Emigrants in considerable numbers continue to arrive on Puget Sound from the Eastern States, California and Oregon, and Washington Territory appears to be rapidly filling up.....Hon Marshal Blinn and family had arrived from the East.

AN AWKWARD MISTAKE.—In alluding to the political meetings held at Nanaimo and Comox last week our local contemporary takes occasion to say that while Mr Robson's addresses elicited no applause, those of his opponent were applauded over and over again. Now the truth is that Mr Robson's remarks were frequently applauded, while those of Mr Bunster—well, some people's perceptive faculties are so dull as to render it impossible for them to distinguish between derision and applause.

THE ENTERPRISE will make but one trip to Fraser River this week. She will sail tomorrow morning at 9, and return on Friday or Saturday.

THE Spence Company on Lightning creek have struck a prospect of $4 to the shovel of dirt.

POSTPONED.—The farmers have postponed the plonghing match at Simpson's from the 5th to the 11th inst.

SAD OCCURRENCE.—The Hudson Bay Company, on Saturday, received intelligence of the death of Chief Trader Peter Ogden, in charge at Stuart Lake, and of the death of his son, Peter Skeena Ogden, in charge at Fraser Lake, within a few days of each other. Mr Moffit communicates the sad intelligence. He writes that on the 1st October, Mr Ogden, sen'r, received a letter from his son stating that he was suffering from a slight attack of influenza and asking for medicines. Mr Chas Ogden was sent across and returned on the 4th with the news that Peter had died on the 3d. Mr Ogden, sen'r, who had been also suffering from a slight attack of influenza, immediately took to his bed and died on the 9th inst. The elder Mr Ogden had been in the employ of the Company since early childhood. His father before him was a Chief Factor and extensively known in Oregon, and it is related of him that while in a remote part of the country now known as British Columbia, he received and honored with a salute the news of the defeat of the French at Waterloo four years after the battle occurred. Mr Peter Ogden was aged about 56 years and his son, 25 years. The latter was educated at the old Colonial School, head of Fort street, of which Mr Burr was principal.

THE RIFLE MATCH.—In our last edition was published the score made by the Victoria Rifle Corps on Saturday, in competing with the New Westminster Corps for the challenge cups. For the Seymour Cup, private Butler, of the Victoria Corps, scored 57 points, and as the highest score made for it at New Westminster was 47, Mr Butler takes the cup. For the Birch Cup, corporal Allsop and private Butler, of the Victoria Corps were the highest, each making a score of 25 points, but it will be seen by our telegraphic dispatches that private George Odin of the New Westminster Corps, made a score of 29, consequently he takes the Birch Cup. It will be observed that, of the New Westminster Volunteers, Odin made the highest score for both cups.

SEATTLE THE TERMINUS.—Our contemporary of the Seattle *Intelligencer* appears to feel pretty certain about the North Pacific Railway terminating at that town. Nor does his confidence seem to be ill founded. Under instructions from the Land Commissioner there has been a withdrawal of all lands from pre-emption for a distance of 20 miles on each side of a route, designated by the company, from Vancouver to a point six miles north of Seattle, and there being no other suitable point north it is not unreasonably concluded that Seattle must be the terminus. We observe that Olympia papers entertain the opinion that such will be the case. Should these opinions prove to be correct there must indeed be a great future in store for the thriving town of Seattle.

ESQUIMALT SCHOOL DISTRICT.—The following are the boundaries of the Esquimalt School District, as defined in Saturday's *Gazette*: 'All that piece of land included within the following limits, viz, Commencing at the Western extremity of the South boundary line of the Craigflower School District, then Southerly and Easterly along the shore line of Esquimalt Harbor and Fuca Straits, and Northerly along the water line of Victoria Harbor to the Southeastern extremity of the said Craigflower School District, then along the Southern boundary line of said District to the point of commencement.

MR. J. J. JACOBS, for a long time proprietor of the St George Hotel, will take his departure for Puget Sound to-day. As a first-rate fellow, and one who 'knows how to keep an hotel,' we can cordially recommend Mr Jacobs to our friends on the other side. The St George, under his management, has been noted as one of the most orderly, cleanly and comfortable family hotels on the Pacific. Wherever Mr Jacobs may locate traveling British Columbians will always be found among his best patrons.

ALHAMBRA HALL.—Last evening the performance was better than ever before. Messrs Campbell, Foster and Rhoades excelled even themselves, and kept the audience in roars of laughter from first to last. Miss Lee, Miss Beusen and Mr Arnold were very successful in song and dance. The troupe will cross the Sound on Friday morning, so that those who may wish to see them should avail themselves of the opportunity now offered.

NORTHERN LIGHT. — There was another brilliant display of *aurora boeralis* last evening. The light was deep red and was so intensely bright at times as to nearly cause an alarm of fire. The streaks of green and gold, which were prominent features of the display about five weeks ago, were not visible last evening.

FROM PUGET SOUND.—The steamer Isabel, Capt Starr, arrived from Port Townsend last evening with some freight, thirty-six passengers and the mails. The Isabel will sail at 10 o'clock this morning....The steamer Anderson arrived from the same place about half an hour later, bringing 34 passengers, 23 head of cattle, 47 sheep, 9 horses and a quantity of produce. She will sail at noon to-day. We have to thank the officers of both steamers for the usual favors.

THE ALASKA TIMES.—This paper has been removed to Seattle, W.T. The first number was published by Mr T. G. Murphy, editor and proprietor, on Sunday last. It presents a fine typographical appearance and will, it is believed, do well.

THE 'CAMBRIA.'—This steamship, mentioned in our telegrams to-day as having been lost on the coast of Ireland, was a new propellor and belongs to the Anchor Line of steamers. It is to be feared that the loss of life and property has been very great.

SALE OF A CRACKER BAKERY, &C.—Mr Wm Monoks has instructed Mr Lumley Franklin to sell his valuable machinery for cracker baking, ovens and stumps, together with the stock on hand, tools, furniture, &c. The sale will take place on Friday next.

LILLOOET SCHOOL DISTRICT. — Saturday's *Gazette* defines the Lillooet School District as follows: 'All that piece of land included within a circle having a radius of three miles from the Court House.'

CARIBOO PORK MARKET.—Evans & Williams opened yesterday and dispensed the finest sausages of the season. Call and try them.

WINDOW SMASHING. — Tommy, a Fort Rupert Indian, was yesterday arraigned before the Police Court on a charge of breaking eight panes of glass in a house on Cormorant street, and fined $10, or in default seven days' imprisonment.

DISCHARGED.—The Indian Sam, who for several days has been under arrest on a charge of stealing two shovels from Mr Spelde, was yesterday discharged from durance vile.

HOMEWARD BOUND.—A private telegram announces the arrival at Portland, Oregon, yesterday morning, of Rt Rev Bishop DeMers and Rev Father Seghers. The reverend gentlemen attended the late Ecumenical Council at Rome.

LAID OVER.—It is notified in the Government *Gazette* that all the mining claims in the District of Cariboo are to be laid over from the 1st November until the 20th May.

DID NOT ARRIVE.—Governor Salomon, of Washington Territory, was to have arrived by the Isabel last night, but was prevented by indisposition.

Gladstone and the Government were reproached for their policy of obstruction. An alliance with France was advocated and resolutions adopted calling on Parliament to abolish the pensions of German Princes, including the Crown Prince of Prussia and the Prince Louis of Hesse, and declared that the sooner all the Kings and Queens were dethroned the better. The feeling manifested in some quarters of the city during the night was revolutionary and threatening. The total loss of the steamship Cambria is fully confirmed by later dispatches. There is little to give hope that the passengers who had taken to the boats have escaped. The coast is very dangerous and it is evident from the upsetting of the boat from which a single survivor of the wreck was picked up, that the sea was very rough at the time of the disaster. Nevertheless those who have friends on board need not be in haste to imagine the worst. The coast is admirably guarded by expert and adventurous men and it is not impossible that if the boats were driven ashore some passengers were saved.

French Medicines.

PREPARED BY

GRIMAULT & CO.

Chemists to H. I. H. Prince Napoleon

PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the faculty in the whole world. They widely differ from those numerous medicines advertised in the public paper as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France, with regard to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine, and have been proved efficacious, either in the Hospitals, or in the practice of the first medical men, are authorised by the Government. This fact must be a guarantee for the excellency of MESSRS. GRIMAULT & Co's medicines.

Women's and Children's Diseases.

Grimault's Syrup of Iodized Horse Radish.

Patronized for more than twenty years by the Paris Physicians. Cures lymphatism, rachitism, scrofula, congestion of the glands of the neck, paleness and flabbiness of the flesh, loss of appetite, weakness of constitution, the various eruptions on the face, boils, pimples, itchings.—It is the best remedy against the first stage of consumption, and is the most powerful depurative known.

DOCTOR LERAS'

It cures chlorosis, pains in the stomach, difficult digestions, dismenorrhea, anæmia, general debility and poorness of the blood, and agrees especially with the most delicate stomachs.

LUNG DISEASES.

Grimault's Syrup of Hypophosphite of Lime.

It is the best and the most rational of all remedies against consumption. Under its influence the cough abates, the night sweats cease, and the patient rapidly recovers health. It gives the same results in cases of coughs, catarrhs, hooping coughs and influenza. In comparing this syrup with the other sold under the same name, it will be easy to recognize the superiority of this preparation.

Therefore to avoid any substitution, please to require on the bottle the signature: Grimault and Co.

NERVOUS HEADACHE and NEURALGIA.

GUARANA.

Where all other Medicines have failed, these preparations will always effect a cure. These insure rapid and extraordinary cure of severe, recent and chronic cases of private disease. They are used in the Hospitals of Paris, by the celebrated Dr Ricord, and are found greatly superior to all hitherto known mineral remedies and Copabia and Cubebs. The injection is used in recent and capsules in the more chronic cases.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S DIGESTIVE LOZENGES.

TO PHYSICIANS.

NEW YOR August 15th, 1868.

Allow me to call your attention to my PREPARATION OF COMPOUND EXTRACT BUCHU the component parts are, BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES:

MODE OF PREPARATION—Buchu, in vacuo. Juniper Berries, by disstillation, to form a fine gin. extract ed by displacement with spirits obtained from Juniper Berries; very little sugar is used and a small proportion of spirit. It is more palatable than any now in use.

Buchu as prepared by Druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates, the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection it will be found not to be a Tincture, as made in Pharmacopœa, nor is it a Syrup—and therefore can be used in cases where fever or inflamation exists. In this you have the knowledge of the ingredients and the mode of preperation

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation,

With a feeling of profound confidence.

I am, very respectfully,

H. T. HELMBOLD,

Chemist and Druggist of 10 year's experience

ROBINSON'S

Celebrated Magic Soap

DIRECTIONS.

For doing a Large Family washing in Two Hours; of Five or Six Dozen Pieces.

1. Cut up fine a bar of the Soap, and put one-half of it into your boiler with sufficient water to cover your white clothes to be washed, and let the soap dissolve; then put your clothes in, stirring them, and let them just come to a boil, then pour out clothes and water into a tub and let them soak twenty or thirty minutes, stirring them around in the tub occasionally to loosen the dirt. Such articles as collars, wristbands or any other article very dirty, should be rubbed through the hands a little while soaking in order to loosen the dirt before boiling.

2. While your clothes are soaking put the half of your cut soap into your boiler, with sufficient clean water to boil, and let it be heating. After your clothes have soaked, wring them out well and put into your boiling water, and let boil from 5 to 10 minutes, then rinse, blue and hang out to dry. If the above directions are followed, we will guarantee your clothes clean and white.

3. For your colored and woollen clothes use the same water you soaked and boiled your white clothes with, only heating it up again, and pour it over your colored and woollen clothes, and let soak the same as your white clothes, also rubbing them through your hands while soaking if very dirty. Then rinse in clean water warm as your hands will bear, and you will thus accomplish a large washing in two hours.

By cutting up a bar of this soap into two gallons water, and let boil until thoroughly dissolved, and then leave to cool, you will have two gallons of beautiful SOFT SOAP as good as Common Soap for general house purpose.

DR. CHING FUN—A CARD—EDITOR BRITISH COLONIST—Through the medium of your paper I want to state the very great good that has been done me by Dr Ching Fun of this city, next door to Kwong, Lee & Co. For 24 years I suffered with neuralgia on the brain, which baffled the skill of three first class American physicians. Latterly bronchitis attacked my right lung, and my eyes became awfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr Ching Fun, and after five months' treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises too loudly, so that all my countrymen similarly affected may visit him and find relief. Respectfully

DYSENTERY, CHOLERA, FEVER, AGUE COUGHS, COLDS, &c.

DR. J. COLLIS BROWNE'S (Ex Army Medical)

CHLORODYNE,

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W P Wood stated that Dr COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr J Collis Browne was the discoverer of chlorodyne; that they prescribe it largely and mean no other than Dr Browne's.—See TIMES, July 12 1864

The Public therefore are cautioned against using any other than

Dr J Collis Browne's Chlorodyne,

REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the nervous system, restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera Dysentery, Diarrhœa, Colics, Coughs, Asthma, Cramp Rheumatism, Neuralgia, Cough, Hysteria, &c.

EXTRACTS FROM MEDICAL OPINIONS

The Right Hon Earl Russell communicated the College of Physicians and J T Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See Lancet, Dec 31, 1864

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay. "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when other medicines had failed."

Dr Lowe, Medical Missionary in India, reports [Dec 1855] that in nearly every case of Cholera in which Dr J Collis Browne's Chlorodyne was administered, the patient recovered.

Extract from Medical Times, Jan 10, 1865—Chlorodyne is prescribed by scores of orthodox medical practitioners. Of course it was not thus be singularly popular did it not supply a want and fill a place.

Extract from the General Board of Health, London, as to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases.

Beware of spurious and dangerous compounds sold as CHLORODYNE from which frequent fatal results have followed.

See leading article, Parmaceutical Journal, Aug 1, 1869 which states that Dr J Collis Browne was the inventor of Chlorodyne that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Political.

To the Electors of the District of Victoria City,

GENTLEMEN:—At the request of a large number of Electors I offer myself as one of your Representatives in the next Legislative Council, where our political destiny is to be chosen. At such a crisis in our history it is specially important that you should elect members who will faithfully and fearlessly represent your wishes. The following is a brief outline of the views which I am prepared to advocate:

Confederation with the Dominion of Canada is a policy upon which we all agree; and I am in favor of accepting the Terms, as a whole, as agreed upon by our Delegates with the Dominion Government.

I recommend the immediate acceptance of the Canadian Bill, believing it to be materially in the interests of the people of the Colony.

If it should be found practicable to make Victoria the Terminus of the Railway, I would use every effort to secure that desirable end, and, if necessary, advocate a special concession for the purpose.

Responsible Government is the only system which can satisfy a free people, and I shall support its immediate adoption.

As to the very important and interesting question of Education, I believe it to be the duty as well as the interest of the State to provide for the education of its children, and that non-sectarian schools adequate to the purpose ought to be established and maintained and an efficient staff of teachers paid by the Government out of the general revenues of the country.

A tax upon unimproved lands would have my warmest support.

A supply of wholesome water for the City is urgently required, and I will support any practical measure to secure it.

My interests are identical with yours. I earnestly desire to see this City and the magnificent country of which it is the Capital prosperous and progressive; and if you elect me as one of your members, I will use my best exertions to secure that result.

I intend to take an early opportunity of personally explaining to you my political views, and am, Gentlemen

Your obedient servant,

J. W. CAREY.

Victoria, Oct 18, 1870 o19

Lillooet District.

To the Electors of Clinton and Lillooet District

GENTLEMEN,—You want a man to represent you in the Legislative Council. A good many of you have urged me to seek the representation of the District. I offer my services.

I am in favor of Confederation, because it is the policy of the Home Government, irresistible, and will end a system that means nothing but taxation.

The people who have voted pensions to public officers for important services rendered to their country, have exhibited sure signs of common sense, justice and gratitude. Pensions to such public officers as ours would be evidence of extreme folly.

The chief duty of your representatives at the next meeting of the Legislative Council, will be to examine the contract we are about to make with Canada, and if there are in it any conditions detrimental to the interests of this colony, to exhibit their injustice and demand amendment.

I am no orator. The majority of those who try to be eloquent are merely nonsensical; they forget that this is a practical age, and that a grain of common sense is better than a ton of chaff. "I HAD RATHER SPEAK FIVE WORDS WITH MY UNDERSTANDING THAN TEN THOUSAND WORDS IN AN UNKNOWN TONGUE."

I value the friendship and goodfellowship that exist between myself and the majority of the men in the District; they will be pleased to hear that I shall not solicit one vote as a personal favor. Friendship and goodfellowship should not presume to stand between you and your duty. Elect the best man. If you elect me I promise I shall make gentlemen ashamed of having voted pensions to themselves for duties not discharged.

I have the honor to be a firstrate ploughman, and your obedient servant,

GEORGE A. KELLY

REPLY

To ELECTORS OF NANAIMO-COMOX DISTRICT,

GENTLEMEN:—In response to the Requisition you have been kind enough to present to me, I cheerfully consent to be put in nomination for the representation of your District in the Legislative Council; and, in doing so, it will hardly be necessary to assure you that, if elected, my best efforts shall be earnestly directed towards promoting the interests of your District in particular, and those of the Colony in general.

In accepting your nomination and soliciting the suffrages of the District, it may be expected that I shall, in accordance with long established custom, indicate the outlines of my political creed; and yet the prominence with which my political views have been before the public would almost seem to render any exposition of them unnecessary at the present time. It may, however, be proper that I should touch upon a few cardinal principles.

The subject of confederation completely overshadows every other political question at the present time; and I will tell you frankly that I am in favor of accepting that change upon the basis now officially before the public believing that in it and through it the country will obtain very great financial and political advantages.

There are two open questions of considerable importance which will be submitted to the people, through their representatives, viz., a choice of local constitution and a choice of Customs Tariff. I hold the people of British Columbia to be fit for and entitled to, self-government, and I believe it will be their duty and interest to contend for full political rights as an immediate result of union. The acceptance of the Canadian Tariff, with its ample protection to stock raisers and its long and ever extending free list, I believe to be in the true interest of every community; it would relieve the people of a load of taxation for Federal purposes and would tend to stimulate industry.

A Reciprocity Treaty with the United States, under which our coal and other products might find an open and ready market, I conceive to be amongst the most urgent needs of the colony; and any feasible movement tending thereto shall ever have my earnest and hearty support.

The education of the young must ever be regarded as one of the first duties of a civilized government, and I cannot hesitate to say that the existing educational system is as ill-adapted as the provisions thereunder are inadequate to the circumstances and necessities of the country.

Upon the subject of Retrenchment in the governmental expense, it will only be necessary to say that the most effective remedy will be found in Confederation with Responsible Government.

It need only be added that, in seeking to carry out my views upon these and other questions, I shall, if elected, ever regard it as a first duty to see that your District—among the most important and productive in the united colony—shall have its full share of legislative attention and expenditure of which it has been so notoriously and unjustly deprived in the past.

Intending, as I do, to take an early opportunity of visiting every part of the District and meeting the electors personally, and expounding more fully my political views, I trust these few hasty and general remarks may suffice for the present.

I have the honor to be, Gentlemen,

Your obedient servant,
